## Two Sites Are Named For Federal Building

BY COMMITTEE

The committee to select a site for the federal building have decided that in their opinion the three blocks on the Esplanade from Fort street to Alahea street be turned over to the federal government for buildings and that the Bishop Estate property on King and Bishop streets be the choice of the committee for a postoffice site provided definite arrangements can be made for terms of transfer with the territorial government.

Dr. Cofer, Marine Hospital Service, was the first to appear before the committee this morning giving in detail the cramped quarters in which the service is obliged to get along. The hospital service, the quarantine service and the immigration examination service are greatly in need of more room which in the present customs house buildings it is impossible to get.

Collector of Customs Stackable stated that the buildings which were being used were in poor condition and entirely inadequate to the needs of the office. The warehouse accommodations are very poor where so much work has to be done in the examination of goods. A building for the housing of the

quarantine, marine hospital, immigration and shipping commission in one building is desirable. A report on the conditions of the customs need will be turned over to the commissioner. Mr. Stackable stated that in his opinion it would serve to expedite matters if the territorial government would transfer to the United States the block adjoining the present customs house. A study of a map of the city was then gone into and the different sites discussed.

L. A. Thurston stated that with the Bishop Estate trustees, while they were agreed upon the exchange of land, had not yet agreed upon how the change should be made. It would place matters in a peculiar situation if the committee should recommend the King and Bishop street site and then the Governor and trustees could not agree upon terms of exchange.

A new site on Edinburg street now owned by the Union Feed Co. was looked into. Mr. Stackable stated that if the buildings must all be under one roof the customs would go up town. If there are to be two buildings the customs house should be where it is now. It is centrally located with regards the business portions of town and the shipping.

Mr. Thurston suggested that the committee get down to choosing a site and after discussion the committee decided upon the appointing of a committee to confer with the trustees of the Bishop estate regarding what land they wanted from the government in exchange for the land on King and Bishop streets. This land is not to be for the customs house building.

Mr. Carter then moved that it be the sense of the committee that the territory give to the federal government the remaining portion of the block the customs house is now on and the two adjoining blocks to the eastward.

This was put into a motion and unanimously carried. It was decided that Mr. Thurston be a committee of one to confer with the Bishop estate trustees to hurry them along to a definite proposition on the exchange. Another meeting will be held next week to hear from him.

Those present besides Commissioner East were: J. M. Oat, F. W. Macfarlane, E. R. Stackable, George R. Carter, Raymer Sharp, L. A. Thurston, F. A. Schaefer, Alonzo Gartley, Dr. Cofer, A. S. Hartwell, J. K. Kane, P. M. Dodge, A. G. M. Robertson.

San Francisco, Dec. 12.—The steamer Silvertown, with the Honolulu cable on board, left the harbor today. It was planned to begin the work immediately one mile south of the Cliff house.

## BRUSSELS SUGAR CONVENTION

London, Dec. 11.—Questioned recently as to whether the law officers of the crown had ever given the opinion that the imposition of a countervailing duty to neutralize foreign sugar bounty would contravene the favored nation clause in existing commercial treaties, Premier Balfour replied that he had no record of such an opinion. Today, however, he volunteered the statement that an identical opinion declined to commit himself with had been given in 1890, but he regarded to the effect of this opinion in the present circumstances.

The Premier's statement, however, is regarded as justifying Russia's threat to treat the imposition of a countervailing duty as a breach of treaty. As practically the entire British export trade with foreign countries is carried on under the protection of the favored nation clause, the government faces the alternative of either dropping the Brussels sugar convention or risking the loss of the favored nation advantages. One effect of Great Britain's adherence to the sugar convention would be to entitle the United States and Russia to place higher import tariffs on British goods. It is expected that rather than risk such a serious dislocation of foreign trade, the government will forego the imposition of countervailing duties on sugar.

The best man was Eugene Lyman, a brother of the groom. The Richardson home on Church street was beautifully decorated for the occasion. The presents sent by friends were numerous and valuable.

After the ceremony, a delightful luncheon was served, and at 3:30 p. m. the bridal party left by train for the Volcano House. They will reside at Kapoho, Puna.

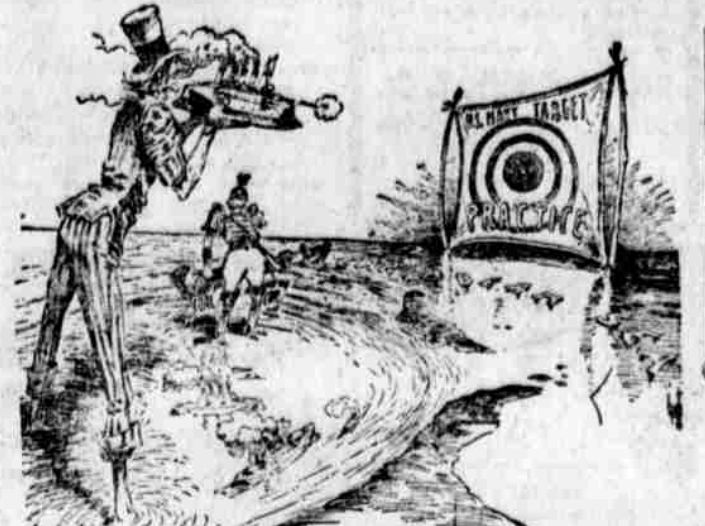

## WANT TO ITRATE

Washington, Dec. 12.—A cablegram received at the state department today from Minister Bowen at Caracas, states that the Venezuelan government has requested him to propose to Great Britain and Germany that the difficulties arising out of the claims for alleged damages and injuries to British and German subjects during the civil war be submitted to arbitration.

Caracas, Venezuela, Dec. 11.—The Government has taken preservative measures at La Guayra. All the deposits of coal at the navy yard and all the British cars on the La Guayra railroad have been brought here, rendering impossible the transportation of the allied troops by rail. Gen. Ferrig, the Minister of War, spent all today in choosing spots in the mountains where trenches are to be dug.

The Governor of Caracas has issued the following decree: "All Venezuelans living in the federal district, between the ages of 18 and 50 years, must enroll themselves in the militia. Any such person refusing to enroll voluntarily as patriotism demands, will be declared a traitor and sent before the tribunals."

## BISHOP GULSTAN

Bishop Gulstan, accompanied by Father Valentin, arrived in the Kilauea this morning. He stood the trip from Hilo very well and although very weak his condition has not become more serious than it was before leaving Hilo. At the wharf a party of brothers from the Mission and St. Louis College met the steamer and accompanied the aged prelate to the Mission.

The Bishop was conveyed from the steamer to the Mission on a stretcher, being surrounded by the brothers and followed by a large crowd of the parishioners of the church.

## BARRETT DECLINES

Washington, Dec. 12.—Secretary Hay has received a cablegram from John Barrett, at Calcutta, India, saying he regards it his duty to continue his connection with the St. Louis Exposition, and declining the United States Ministry to Japan. It is now understood that Lloyd Griscom Jr., Minister to Persia, will be the successor to the late Minister Buck.

Yesterday, after a long conference with President Castro, United States Minister Bowen obtained an order for the liberation of the remaining British and German subjects who were held prisoners, and an hour later all had been released. Minister Bowen and Secretary of Legation Russell went to the jail five times, and assisted the poor colored British subjects and those who were ill. The order for the release of the prisoners has made a good impression, and is looked upon as a political act on the part of President Castro.

Everyone in Caracas believes the situation to be desperate, and threatens war unless Minister Bowen succeeds in having the matters in dispute submitted to arbitration. It is said on the authority of an official near to President Castro that the President has allowed Minister Bowen to communicate with the Berlin and London Governments through the State Department at Washington, this being the only hope of avoiding a serious conflict. It is reported that the plan of the British and German forces is to secure the ports of La Guayra and Puerto Cabello.

It is stated on good authority that the Venezuelan Government has asked Minister Bowen to act as arbitrator. The English telephone office has been seized.

## BROWN WINS A POINT

FIGHT TO RETAIN  
II ESTATE MANAGEMENT

JUDGE GEAR DECLINES TO SUSTAIN THE DEMURRER THAT IS MADE TO THE COMPLAINT.

Charles A. Brown has scored a point in his suit against Alfred W. Carter and others involving the management of the John II Estate, Ltd. Judge Gear rendered a decision today overruling the demurrer of the defendants to Brown's bill for an injunction. They are given five days in which to answer the complaint.

Complainant in his bill related the formation of the II corporation with a capital of \$150,000, divided into 1500 shares of which he held 499. He also set out the articles of association, which provide that the officers and directors should hold office for one year and thereafter until their successors were appointed. Under this provision C. A. Brown was the first treasurer and manager, and the original by-laws provided that if and while the treasurer held not less than one-fourth of all the shares, he should have the sole and exclusive charge, care and control of all the corporation's property and funds. Any limitation upon such powers should be made only by a vote of the shareholders holding not less than three-fourths of all the shares of the company.

The complainant alleged that certain of the defendants as stockholders called a meeting of the stockholders "for the purpose of passing by laws, in order to maliciously harass and injure plaintiff and to prevent him from leaving the Territory. And that at the meeting, over the protest of plaintiff, and also the protest of Alfred Magoon, one of the other stockholders, certain by-laws were declared as adopted, which plaintiff alleges were and are inconsistent with the articles of association."

These new by-laws are quoted, one article of which provides for the removal of any officer of the company absenting himself from the Territory or Hawaii for more than three weeks without the consent of a majority of the stock. It also forbids any officer from delegating his duties to any other person.

Another article makes the duties of the treasurer and manager those usually appertaining to such offices and such other duties as are imposed upon
